

DVD-05 Index:

This collection of freeware is for those looking for ways to solve their own problems, be it trouble-shooting or using free programs to do what expensive programs can do. It also has many trouble-shooting tips.

Finding what you need on a club DVD:

--

A DVD contains a collection of freeware and information for solving computer problems. I suggest copying the contents of the DVD to a folder on your hard drive. To find info pertaining to a subject of interest, right-click that folder, Search, type a keyword about your interest in the "file name" bar, and click the Search button. At times results can be obtained by putting the keyword in the "word in the file" bar.

--

Expanding the folder containing the disc contents (click the parent folder and tap the * key on the keyboard keypad) to browse the list of subjects can be useful.

Programs in this list the collector of the list uses a lot:

AddOrRemovePro

AutoRuns

Avira AntiVir Personal

AVS Disc Creator version

Belarc Advisor

Ccleaner

CDBurnerXP

Defraggler

eCleaner

Folder Size for Windows

Foxit (PDF) Reader
