

Photo Exhibit CD-ROM

This CD contains the approximately 125 photographs shown during our special Photography Exhibition on June 15, 2006. The photos are presented in a slide show format with the pictures accompanied by background music. The photographs may be also viewed independently.

The Photography Exhibition was held to publicize the Association of Personal Computer Users Groups contest that will be held in association with its 2007 Las Vegas meeting. LSCS Members are encouraged to submit their photographs to the APCUG contest before September 30, 2006.
